

For Immediate Release

IMPACT Announces Agent in Poland - AB System Sp. z o. o.

Saint Jacques, Quebec, Canada, October 14, 2024 – IMPACK Folder-Gluer Peripherals is pleased to announce that AB System Sp. z o. o., based in Rydzyna, Poland is now an official IMPACK agent. This collaboration aims to explore the expanding opportunities in Poland's packaging market.

AB System Sp. z o. o. was founded in 2011 to expand on client services that began in 2011. For 22 years the AB System team has been supporting clients as a distributor of specialized equipment. The team at AB System is known for being highly qualified, flexible, and readily accessible to clients. With extensive experience in supporting client needs associated with glue systems, AB System is well-equipped to provide exceptional support to our GenieCut clients.

“I have been in the industry for almost 15 years and a lot has changed during that time. The packaging industry has been dynamically evolving in order to fulfil constantly growing demand. The companies try to increase their productivity by faster and cheaper manufacturing process to satisfy their consumers. In order to cope with this, they need to invest in modern machine park and new technologies which brings them closer to that goal. I strongly believe that highly advanced IMPACK solutions are the answer to the packaging industry expectations.”

-Wiktor Gruchociak
Sales Department Manager, AB System

Poland stands as one of the most important and rapidly growing markets in Eastern Europe's packaging sector. IMPACK will support the growth of the folding carton industry in Poland by providing folder-gluer peripherals to the region, ensuring that companies can reach the maximum output efficiently.

“Working with a top-tier agent like AB System in Eastern Europe will boost our presence and help us provide even better service to our clients in the region. We're looking forward to the opportunities this collaboration will bring.” - Mathieu Tremblay, Deputy General Manager, IMPACK

About IMPACK

IMPACK is an engineering company that designs and manufactures folder-gluer peripherals for folding carton and corrugated box packaging producers. Our comprehensive product range includes in-line window patchers, pre-feeders, box turners, packers, stackers, batch inverters, as well as counting and separating modules. Our collaborative approach ensures that our clients get tailored solutions that eliminate bottlenecks and optimize workflows.

With over 20 years of experience analyzing packaging production workflows and methods, our machines are meticulously engineered based on insights gained from thousands of client interactions. We design solutions that help operators and packers to work more ergonomically and efficiently so that they can increase folder-gluer speed and ultimately production capacity.
